PROFESSIONAL SUMMARY

Web Developer with 1.5 years of professional experience building modern, performant web applications using React, Redux and WordPress. Experienced working fully remotely in international teams including a fast-paced web agency. After 2022, continued hands-on development through real-world full-stack projects, maintaining and expanding technical skills while traveling. Now seeking a frontend or full-stack role where clean code, UX, and collaboration matter.

PROFESSIONAL EXPERIENCE

FRONTEND WEB DEVELOPER (REMOTE)

Ignition Group PLC (UK) | 31 August 2021 - 8 September 2022

- Built a dynamic wattage calculator using React and Redux to recommend tailored products based on user input
- Applied Redux Ducks modular architecture for scalable state management and CSS Modules for organised styling
- Converted an existing Magento site into a Progressive Web App (PWA)
- Developed new features within large existing codebases while refactoring old code for performance and maintainability
- Collaborated closely with the backend developer on testing and debugging
- Used Slack and PHPStorm Code With Me for effective remote collaboration

FRONTEND WEB DEVELOPER (REMOTE)

UXIA Agency (Digital agency - Paris, France) | 11 March 2021 - 27 August 2021

- Developed responsive user interfaces from wireframes and prototypes
- Delivered multiple client websites under tight deadlines in a fast-paced agency environment
- Collaborated daily with design and marketing teams
- Optimised web assets for performance
- Maintained and updated existing client websites with Shopify and WordPress
- Managed tasks using Monday

FRONTEND WEB DEVELOPER (REMOTE)

Unsourced Digital (Web Development agency - Vienna, Austria) | 1 Dec 2020 - 4 Jan 2021

- Built and enhanced features using React and TypeScript
- Implemented responsive UI using TailwindCSS and SCSS
- Wrote clean and maintainable code

LANGUAGES

- English - Native
- French - Fluent
- Punjabi - Beginner

PROJECTS

E-commerce Platform (In Progress)

Full-stack e-commerce application with admin dashboard, product management and checkout flow.

GitHub: <https://github.com/RahniDev/ecommerce>

Artist Portfolio Website

React portfolio for an artist with focus on performance and UX.

GitHub: <https://github.com/RahniDev/artist-portfolio>

ADDITIONAL EXPERIENCE

TEAM MEMBER

The Longboat Restaurant (Premier Inn restaurant) | York, UK | 22 Sep 2019 - 28 Nov 2019

- Delivered friendly, efficient customer service in a high-pressure environment (busy morning buffets)
- Communicated effectively with kitchen and front-of-house teams

EDUCATION

SELF-STUDY - WEB DEVELOPMENT COURSES

- MERN Stack React Node Ecommerce from Scratch to Deployment
- The Modern JavaScript Bootcamp
- The Complete 2019 Web Development Bootcamp
- Modern React with Redux (React, Redux, Hooks)

NOTE ON CAREER BREAK

Since September 2022, I practiced organic agriculture and traveled across Asia while continuing to develop production-ready web applications and deepen my full-stack skills through personal projects. This period strengthened my autonomy, adaptability, and problem-solving abilities.
